The Director of Central Intelligence
Washington, D.C 20505

Critical Intelligence Problems Committee

DCI/ICS 83-3856A
7 October 1983

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Director, Intelligence Community Staff

25X1 FROM: [REDACTED]
Vice Chairman

25X1 SUBJECT: CIPC Monthly Report--September 1983 [REDACTED]

25X1 1. The Committee did not meet on 26 September to address the Narcotics Study as previously scheduled. The meeting has been rescheduled for 11 October. This action was necessitated because several of the Narcotics Working Group members--particularly DEA, State and DIA--needed additional time to review and coordinate on the draft Narcotics Study. [REDACTED]

Narcotics Activities

25X1 2. Following extensive discussion and review by the 17-member Narcotics Working Group, the Executive Summary of the Narcotics Study was provided to the principal CIPC members on 29 September. The Executive Summary contains some 50 recommendations for improving intelligence support to the US intelligence narcotic control effort. The recommendations were developed with a view toward forthcoming budget review and appropriation discussions and involve additions to or development of new programs which affect all collection disciplines. [REDACTED]

25X1 [REDACTED] 25X1

25X1 4. Also, during the month, the Narcotics Working Group convened a special nine-member panel with representatives of DIA, CIA, NSA, OGC, CIPC, the three collection committees, and the Office of the Vice President for the purpose of recommending how classified intelligence could be used to support drug enforcement. The problem is threefold: (1) law enforcement agencies are not accustomed to handling classified material and consequently may not be quite as security conscious as we might like: (2) as law enforcement agencies

foreign intelligence in the court room presents concern that sources and methods could be jeopardized by a defendant's rights of discovery. The panel has met weekly, produced a terms of reference and a brief interim report. The Panel is scheduled to make a final report to the full Narcotics Working Group by 17 October. This report will subsequently be incorporated into the Narcotics Study, as appropriate. [REDACTED]

Strategic Cruise Missile Study

6. The Strategic Cruise Missile Study is in the final editorial stage. It has been updated to reflect the formal comments and recommendations of the CIPC members and we are striving to finalize the report for your subsequent review and promulgation within the next couple of weeks. [REDACTED]

25X1

Other Projects and Activities

25X1

8. You will recall that in June of this year, ACDA had requested that we undertake a study on the proposals for CW/BW treaty monitoring. The more we explore the CW/BW problem the more convinced we are that a working group effort will be required with a much broader scope than just the treaty monitoring aspect. The CIPC staff is presently developing a discussion paper for CIPC consideration and guidance on how the Community pursues this problem. [REDACTED]
